| <b>Hazard statement</b>        | Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Harmful if inhaled. May cause respiratory irritation. May damage fertility or the unborn child.                                                                                                                                                                                      |
| <b>Precautionary statement</b> |                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Prevention</b>              | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist or vapor. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Response</b>                                  | If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. |
| <b>Storage</b>                                   | Store in a well-ventilated place. Keep container tightly closed. Store locked up.                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Disposal</b>                                  | Buyer assumes all risk and liability associated with disposal of this product (original concentration or dilution) in violation of applicable law. Waste from normal use may be sewered to a public-owned treatment works in compliance with applicable federal, state and local requirements. CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer clean, dry container for recycling or reconditioning.                                                                             |
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Supplemental information</b>                  | Use With Adequate Ventilation. Avoid breathing vapors or spray mist. Open windows and doors, use exhaust fans or other means to insure fresh air entry during application and drying.                                                                                                                                                                                                                                                                                                         |

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                            | Common name and synonyms | CAS number | %         |
|------------------------------------------|--------------------------|------------|-----------|
| Methyl Pyrrolidone                       |                          | 872-50-4   | 5 - < 10  |
| Isopropanol                              |                          | 67-63-0    | 3 - < 5   |
| Ethoxydiglycol                           |                          | 111-90-0   | 1 - < 3   |
| Other components below reportable levels |                          |            | 80 - < 90 |

### 4. First-aid measures

|                                                                               |                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                                                             | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a poison center or doctor/physician if you feel unwell.                                                                                                                                                      |
| <b>Skin contact</b>                                                           | Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.                                                                                                                          |
| <b>Eye contact</b>                                                            | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.                                                                                                                                                |
| <b>Ingestion</b>                                                              | Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                                                                                                                                                                              |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.                                                                                                        |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.                                                                                                                                                                                                           |
| <b>General information</b>                                                    | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse. |

### 5. Fire-fighting measures

|                                                                      |                                                                                               |
|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.                                         |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>                                              | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>                                          | No unusual fire or explosion hazards noted.                                                   |

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

### Methods and materials for containment and cleaning up

This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

### Environmental precautions

## 7. Handling and storage

### Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Pregnant or breastfeeding women must not handle this product. Should be handled in closed systems, if possible. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

### Conditions for safe storage, including any incompatibilities

Store locked up. Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components                | Type | Value     |
|---------------------------|------|-----------|
| Isopropanol (CAS 67-63-0) | PEL  | 980 mg/m3 |
|                           |      | 400 ppm   |

#### US. ACGIH Threshold Limit Values

| Components                | Type | Value   |
|---------------------------|------|---------|
| Isopropanol (CAS 67-63-0) | STEL | 400 ppm |
|                           | TWA  | 200 ppm |

#### US. NIOSH: Pocket Guide to Chemical Hazards

| Components                | Type | Value      |
|---------------------------|------|------------|
| Isopropanol (CAS 67-63-0) | STEL | 1225 mg/m3 |
|                           |      | 500 ppm    |
|                           | TWA  | 980 mg/m3  |
|                           |      | 400 ppm    |

#### US. Workplace Environmental Exposure Level (WEEL) Guides

| Components                        | Type | Value     |
|-----------------------------------|------|-----------|
| Ethoxydiglycol (CAS 111-90-0)     | TWA  | 140 mg/m3 |
|                                   |      | 25 ppm    |
| Methyl Pyrrolidone (CAS 872-50-4) | TWA  | 40 mg/m3  |
|                                   |      | 10 ppm    |

## Biological limit values

### ACGIH Biological Exposure Indices

| Components                        | Value    | Determinant                      | Specimen | Sampling Time |
|-----------------------------------|----------|----------------------------------|----------|---------------|
| Isopropanol (CAS 67-63-0)         | 40 mg/l  | Acetone                          | Urine    | *             |
| Methyl Pyrrolidone (CAS 872-50-4) | 100 mg/l | 5-Hydroxy-N-methyl-2-pyrrolidone | Urine    | *             |

\* - For sampling details, please see the source document.

## Exposure guidelines

### US - California OELs: Skin designation

Methyl Pyrrolidone (CAS 872-50-4) Can be absorbed through the skin.

### US WEEL Guides: Skin designation

Methyl Pyrrolidone (CAS 872-50-4) Can be absorbed through the skin.

## Appropriate engineering controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

## Individual protection measures, such as personal protective equipment

**Eye/face protection** Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

### Skin protection

**Hand protection** For prolonged or repeated skin contact use suitable protective gloves.

**Other** None normally required. If unable to avoid prolonged or repeated contact with skin, wear impervious clothing.

**Respiratory protection** If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

**Thermal hazards** None known.

## General hygiene considerations

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

|                                                     |                                       |
|-----------------------------------------------------|---------------------------------------|
| <b>Appearance</b>                                   | Milky, white emulsion                 |
| <b>Physical state</b>                               | Liquid.                               |
| <b>Form</b>                                         | Liquid.                               |
| <b>Color</b>                                        | White                                 |
| <b>Odor</b>                                         | Non-objectional odor.                 |
| <b>Odor threshold</b>                               | Not available.                        |
| <b>pH</b>                                           | 8 - 9                                 |
| <b>Melting point/freezing point</b>                 | Not applicable / Not available        |
| <b>Initial boiling point and boiling range</b>      | > 200 °F (> 93.33 °C)                 |
| <b>Flash point</b>                                  | > 200.0 °F (> 93.3 °C) Tag Closed Cup |
| <b>Evaporation rate</b>                             | < 1 Ethyl ether = 1                   |
| <b>Flammability (solid, gas)</b>                    | Not applicable.                       |
| <b>Upper/lower flammability or explosive limits</b> |                                       |
| <b>Explosive limit - lower (%)</b>                  | Not available                         |
| <b>Explosive limit - upper (%)</b>                  | Not available                         |
| <b>Vapor pressure</b>                               | 16.67 mm Hg                           |
| <b>Vapor density</b>                                | 1.5368 Air=1                          |
| <b>Relative density</b>                             | 1.058 at 77°F                         |

|                                                |                |

| <b>Viscosity</b>                               | Not available. |
| <b>Other information</b>                       |                |
| <b>Brookfield viscosity</b>                    | 30 - 50 cP     |
| <b>Density</b>                                 | 8.81 lb/gal    |
| <b>Explosive properties</b>                    | Not explosive. |
| <b>Oxidizing properties</b>                    | Not oxidizing. |
| <b>Percent volatile</b>                        | 63 - 65 %      |
| <b>VOC</b>                                     | < 250 g/l      |

## 10. Stability and reactivity

|                                           |                                                                                               |
|-------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.                                                   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                   |
| <b>Conditions to avoid</b>                | Avoid temperatures exceeding the flash point. Contact with incompatible materials.            |
| <b>Incompatible materials</b>             | Peroxides. Phenols.                                                                           |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.                                                |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |                                                              |
|---------------------|--------------------------------------------------------------|
| <b>Inhalation</b>   | Harmful if inhaled.                                          |
| <b>Skin contact</b> | Causes skin irritation. May cause an allergic skin reaction. |
| <b>Eye contact</b>  | Causes serious eye irritation.                               |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard.                       |

|                                                                                     |                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms related to the physical, chemical and toxicological characteristics</b> | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash. |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Information on toxicological effects

|                       |                     |
|-----------------------|---------------------|
| <b>Acute toxicity</b> | Harmful if inhaled. |
|-----------------------|---------------------|

| Product                       | Species | Test Results |

| Ethoxydiglycol     | -0.54 |
| Isopropanol        | 0.05  |
| Methyl Pyrrolidone | -0.38 |

**Mobility in soil** No data available.

**Other adverse effects** The product contains volatile organic compounds which have a photochemical ozone creation potential.

### 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. **CONTAINER DISPOSAL:** Non refillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

### 14. Transport information

**DOT**

Not regulated as dangerous goods.

**IATA**

Not regulated as dangerous goods.

**IMDG**

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not established.

### 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

**Toxic Substances Control Act (TSCA)** One or more components of the mixture are not on the TSCA 8(b) inventory or are designated "inactive".

**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

Methyl Pyrrolidone (CAS 872-50-4)

1.0 % Annual Export Notification required.

**CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

**SARA 304 Emergency release notification**

Not regulated.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)**

Not listed.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)****SARA 302 Extremely hazardous substance**

Not listed.

**SARA 311/312 Hazardous chemical** Yes

**Classified hazard categories**

Acute toxicity (any route of exposure)  
Skin corrosion or irritation  
Serious eye damage or eye irritation  
Respiratory or skin sensitization  
Reproductive toxicity  
Specific target organ toxicity (single or repeated exposure)

**SARA 313 (TRI reporting)**

| Chemical name      | CAS number | % by wt. |
|--------------------|------------|----------|
| Methyl Pyrrolidone | 872-50-4   | 5 - < 10 |

**Other federal regulations****Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List**

Not regulated.

**Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)**

Not regulated.

**Safe Drinking Water Act (SDWA)** Contains component(s) regulated under the Safe Drinking Water Act.**FEMA Priority Substances Respiratory Health and Safety in the Flavor Manufacturing Workplace**

Isopropanol (CAS 67-63-0)

Low priority

**US state regulations****US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))**

Isopropanol (CAS 67-63-0)

Methyl Pyrrolidone (CAS 872-50-4)

**California Proposition 65****WARNING:** This product can expose you to Methyl Pyrrolidone, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).**California Proposition 65 - CRT: Listed date/Developmental toxin**

Methyl Pyrrolidone (CAS 872-50-4)

Listed: June 15, 2001

**International Inventories**

| Country(s) or region        | Inventory name                                | On inventory (yes/no)* |
|-----------------------------|-----------------------------------------------|------------------------|
| Canada                      | Domestic Substances List (DSL)                | Yes                    |
| Canada                      | Non-Domestic Substances List (NDSL)           | No                     |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory | Yes                    |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

| <b>OSHA defined hazards</b>  | Not classified.                                   |            |
| <b>Label elements</b>        |                                                   |            |

|                                |                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Signal word</b>             | Danger                                                                                                                                                                                                                                                                                                                                       |
| <b>Hazard statement</b>        | May cause an allergic skin reaction. Causes serious eye damage. Suspected of causing genetic defects. May cause damage to organs through prolonged or repeated exposure.                                                                                                                                                                     |
| <b>Precautionary statement</b> |                                                                                                                                                                                                                                                                                                                                              |
| <b>Prevention</b>              | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe vapor. Contaminated work clothing must not be allowed out of the workplace. Wear eye/face protection. Wear protective clothing. Wear protective gloves: <1 hour (breakthrough time): butyl rubber (0.5 mm). |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Response</b>                                  | IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Wash contaminated clothing before reuse. Get medical attention if you feel unwell. If exposed or concerned: Get medical attention. If skin irritation or rash occurs: Get medical attention. Immediately call a POISON CENTER or physician. |
| <b>Storage</b>                                   | Store locked up.                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Disposal</b>                                  | Buyer assumes all risk and liability associated with disposal of this product (original concentration or dilution) in violation of applicable law in compliance with applicable federal, state and local requirements.                                                                                                                                                                                                       |
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Supplemental information</b>                  | None.                                                                                                                                                                                                                                                                                                                                                                                                                        |

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                                              | Common name and synonyms | CAS number | %       |
|------------------------------------------------------------|--------------------------|------------|---------|
| Trimethylolpropane<br>Tris(2-methyl-1-aziridine)propionate |                          | 64265-57-2 | 50 -100 |
| Other components below reportable levels                   |                          |            | 25      |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

|                                                                               |                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>                                                             | If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician or poison control center immediately.                                                                                                                                                                                             |
| <b>Skin contact</b>                                                           | Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.                                                                                                                                                                            |
| <b>Eye contact</b>                                                            | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.                                                                                                                                                                                 |
| <b>Ingestion</b>                                                              | Call a physician or poison control center immediately. Rinse mouth thoroughly. Drink 1 or 2 glasses of water. Never give anything by mouth to a victim who is unconscious or is having convulsions. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.                                                                                           |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.                                                                                                                                                                                                                                      |
| <b>General information</b>                                                    | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.          |

### 5. Fire-fighting measures

|                                                                      |                                                                                               |
|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>                                  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.                                         |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>                                              | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>                                          | No unusual fire or explosion hazards noted.                                                   |

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

### Methods and materials for containment and cleaning up

This product is miscible in water. Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.

### Environmental precautions

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

## 7. Handling and storage

### Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Wash contaminated clothing before reuse. Observe good industrial hygiene practices.

### Conditions for safe storage, including any incompatibilities

Store locked up. Store away from incompatible materials (see Section 10 of the SDS). Store in tightly closed original container in a well-ventilated place.

## 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components                                | Type | Value   |
|-------------------------------------------|------|---------|
| Polyfunctional aziridine<br>(CAS 75-55-8) | PEL  | 5 mg/m3 |
|                                           |      | 2 ppm   |

#### US. ACGIH Threshold Limit Values

| Components                                | Type | Value   |
|-------------------------------------------|------|---------|
| Polyfunctional aziridine<br>(CAS 75-55-8) | STEL | 0.4 ppm |
|                                           | TWA  | 0.2 ppm |

#### US. NIOSH: Pocket Guide to Chemical Hazards

| Components                                | Type | Value   |
|-------------------------------------------|------|---------|
| Polyfunctional aziridine<br>(CAS 75-55-8) | TWA  | 5 mg/m3 |
|                                           |      | 2 ppm   |

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Exposure guidelines

#### US - California OELs: Skin designation

2-Methylaziridine (CAS 75-55-8)

Can be absorbed through the skin.

#### US - Minnesota Haz Subs: Skin designation applies

2-Methylaziridine (CAS 75-55-8)

Skin designation applies.

#### US - Tennessee OELs: Skin designation

2-Methylaziridine (CAS 75-55-8)

Can be absorbed through the skin.

**US ACGIH Threshold Limit Values: Skin designation**

2-Methylaziridine (CAS 75-55-8)

Danger of cutaneous absorption

**US NIOSH Pocket Guide to Chemical Hazards: Skin designation**

2-Methylaziridine (CAS 75-55-8)

Can be absorbed through the skin.

**US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)**

2-Methylaziridine (CAS 75-55-8)

Can be absorbed through the skin.

**Appropriate engineering controls**

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

**Individual protection measures, such as personal protective equipment****Eye/face protection**

Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

**Skin protection****Hand protection**

Wear appropriate chemical resistant gloves. Butyl rubber.

**Other**

Avoid contact with the skin. If unable to avoid prolonged or repeated contact with skin, wear impervious clothing.

**Respiratory protection**

Chemical respirator with organic vapor cartridge and full facepiece.

**Thermal hazards**

None known.

**General hygiene considerations**

Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

**9. Physical and chemical properties****Appearance**

Light yellow liquid

**Physical state**

Liquid.

**Form**

Liquid.

**Color**

Light yellow.

**Odor**

Amine-like.

**Odor threshold**

Not available.

**pH**

Not available

**Melting point/freezing point**

-22 °F (-30 °C)

**Initial boiling point and boiling range**

Decomposes &gt; 175°C

**Flash point**

487.4 °F (253.0 °C) Setaflash

**Evaporation rate**

Not available

**Flammability (solid, gas)**

Not applicable.

**Upper/lower flammability or explosive limits****Explosive limit - lower (%)**

Not available.

**Explosive limit - upper (%)**

Not available.

**Vapor pressure**

Negligible

**Vapor density**

Not available

**Relative density**

1.07 - 1.08 at 77°F

**Solubility(ies)****Solubility (water)**

Partially soluble in hot and cold water.

**Partition coefficient (n-octanol/water)**

1.4

**Auto-ignition temperature**

653 °F (345 °C)

**Decomposition temperature**

&gt; 347 °F (&gt; 175 °C)

**Viscosity**

200 cP at 25 °C

**Other information****Density**

8.95 lb/gal

**Explosive properties**

Not explosive.

|                             |                |
|-----------------------------|----------------|
| <b>Oxidizing properties</b> | Not oxidizing. |
| <b>Percent volatile</b>     | Not available  |
| <b>VOC</b>                  | Not available  |

## 10. Stability and reactivity

|                                           |                                                                                                                         |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.                           |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.                                                                             |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                                             |
| <b>Conditions to avoid</b>                | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials. |
| <b>Incompatible materials</b>             | Acids.                                                                                                                  |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.                                                                          |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |                                        |
|---------------------|----------------------------------------|
| <b>Inhalation</b>   | Prolonged inhalation may be harmful.   |
| <b>Skin contact</b> | May cause an allergic skin reaction.   |
| <b>Eye contact</b>  | Causes serious eye damage.             |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard. |

|                                                                                     |                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms related to the physical, chemical and toxicological characteristics</b> | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause an allergic skin reaction. Dermatitis. Rash. |
|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Information on toxicological effects

|                       |            |
|-----------------------|------------|
| <b>Acute toxicity</b> | Not known. |
|-----------------------|------------|

| Product                  | Species | Test Results            |
|--------------------------|---------|-------------------------|
| Polyfunctional aziridine |         |                         |
| <b>Acute</b>             |         |                         |
| <b>Dermal</b>            |         |                         |
| LD50                     | Rabbit  | 35000 mg/kg             |
| <b>Inhalation</b>        |         |                         |
| LC50                     | Rat     | 6.35e+006 mg/l, 4 Hours |
| <b>Oral</b>              |         |                         |
| LD50                     | Rat     | 15940 mg/kg             |

### 2-Methylaziridine (CAS 75-55-8)

#### **Acute**

#### **Dermal**

|      |            |          |
|------|------------|----------|
| LD50 | Guinea pig | 43 mg/kg |
|------|------------|----------|

#### **Oral**

|      |     |          |
|------|-----|----------|
| LD50 | Rat | 19 mg/kg |
|------|-----|----------|

|                                  |                                                        |
|----------------------------------|--------------------------------------------------------|
| <b>Skin corrosion/irritation</b> | Prolonged skin contact may cause temporary irritation. |
|----------------------------------|--------------------------------------------------------|

|                                          |                            |
|------------------------------------------|----------------------------|
| <b>Serious eye damage/eye irritation</b> | Causes serious eye damage. |
|------------------------------------------|----------------------------|

### Respiratory or skin sensitization

|                                  |                               |
|----------------------------------|-------------------------------|
| <b>Respiratory sensitization</b> | Not a respiratory sensitizer. |
|----------------------------------|-------------------------------|

|                           |                                      |
|---------------------------|--------------------------------------|
| <b>Skin sensitization</b> | May cause an allergic skin reaction. |
|---------------------------|--------------------------------------|

|                               |                                       |
|-------------------------------|---------------------------------------|
| <b>Germ cell mutagenicity</b> | Suspected of causing genetic defects. |
|-------------------------------|---------------------------------------|

|                        |                                                   |
|------------------------|---------------------------------------------------|
| <b>Carcinogenicity</b> | Not classifiable as to carcinogenicity to humans. |
|------------------------|---------------------------------------------------|

### IARC Monographs. Overall Evaluation of Carcinogenicity

|                                 |                                     |
|---------------------------------|-------------------------------------|
| 2-Methylaziridine (CAS 75-55-8) | 2B Possibly carcinogenic to humans. |
|---------------------------------|-------------------------------------|

## OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

## US. National Toxicology Program (NTP) Report on Carcinogens

2-Methylaziridine (CAS 75-55-8)

Reasonably Anticipated to be a Human Carcinogen.

|                                                           |                                                                                                         |
|-----------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Reproductive toxicity</b>                              | This product is not expected to cause reproductive or developmental effects.                            |
| <b>Specific target organ toxicity - single exposure</b>   | Not classified.                                                                                         |
| <b>Specific target organ toxicity - repeated exposure</b> | May cause damage to organs through prolonged or repeated exposure.                                      |
| <b>Aspiration hazard</b>                                  | Not an aspiration hazard.                                                                               |
| <b>Chronic effects</b>                                    | May cause damage to organs through prolonged or repeated exposure. Prolonged inhalation may be harmful. |

## 12. Ecological information

**Ecotoxicity** Toxic to aquatic life with long lasting effects.

| Product                  |      | Species | Test Results                  |
|--------------------------|------|---------|-------------------------------|
| Polyfunctional aziridine |      |         |                               |
| <b>Aquatic</b>           |      |         |                               |
| Fish                     | LC50 | Fish    | 13135.791, 96 hours           |
| <i>Acute</i>             |      |         |                               |
| Fish                     | LC50 | Fish    | 1582.9004, 96 hours estimated |

**Persistence and degradability** No data is available on the degradability of this product.

### Bioaccumulative potential

#### Partition coefficient n-octanol / water (log Kow)

|                          |      |
|--------------------------|------|
| Polyfunctional aziridine | 1.4  |
| 2-Methylaziridine        | 0.13 |

**Mobility in soil** No data available.

**Other adverse effects** No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. Buyer assumes all risk and liability associated with disposal of this product (original concentration or dilution) in violation of applicable law.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

### US RCRA Hazardous Waste P List: Reference

2-Methylaziridine (CAS 75-55-8)

P067

**Waste from residues / unused products** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated packaging** Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport information

### DOT

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not established.

## 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

### Toxic Substances Control Act (TSCA)

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

### CERCLA Hazardous Substance List (40 CFR 302.4)

2-Methylaziridine (CAS 75-55-8) Listed.

### SARA 304 Emergency release notification

Aziridine, 2-methyl (CAS 75-55-8) 1 LBS

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

## Superfund Amendments and Reauthorization Act of 1986 (SARA)

### SARA 302 Extremely hazardous substance

| Chemical name | CAS number | Reportable quantity (pounds) | Threshold planning quantity (pounds) | Threshold planning quantity, lower value (pounds) | Threshold planning quantity, upper value (pounds) |
|---------------|------------|------------------------------|--------------------------------------|---------------------------------------------------|---------------------------------------------------|
|---------------|------------|------------------------------|--------------------------------------|---------------------------------------------------|---------------------------------------------------|

|                   |         |   |       |  |  |
|-------------------|---------|---|-------|--|--|
| 2-Methylaziridine | 75-55-8 | 1 | 10000 |  |  |
|-------------------|---------|---|-------|--|--|

### SARA 311/312 Hazardous chemical

**Classified hazard categories** Serious eye damage or eye irritation  
Respiratory or skin sensitization  
Germ cell mutagenicity  
Specific target organ toxicity (single or repeated exposure)

### SARA 313 (TRI reporting)

| Chemical name     | CAS number | % by wt. |
|-------------------|------------|----------|
| 2-Methylaziridine | 75-55-8    | < 0.2    |

## Other federal regulations

### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

2-Methylaziridine (CAS 75-55-8)

### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

2-Methylaziridine (CAS 75-55-8)

**Safe Drinking Water Act (SDWA)** Contains component(s) regulated under the Safe Drinking Water Act.

## US state regulations

**US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))**

2-Methylaziridine (CAS 75-55-8)

### California Proposition 65

**WARNING:** This product can expose you to 2-Methylaziridine, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### California Proposition 65 - CRT: Listed date/Carcinogenic substance

2-Methylaziridine (CAS 75-55-8) Listed: January 1, 1988

## International Inventories

| Country(s) or region | Inventory name                      | On inventory (yes/no)* |
|----------------------|-------------------------------------|------------------------|
| Canada               | Domestic Substances List (DSL)      | No                     |
| Canada               | Non-Domestic Substances List (NDSL) | Yes                    |

|                             |                                               |                               |
|-----------------------------|-----------------------------------------------|-------------------------------|
| <b>Country(s) or region</b> | <b>Inventory name</b>                         | <b>On inventory (yes/no)*</b> |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory | Yes                           |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)  
A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

## 16. Other information, including date of preparation or last revision

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
